Dear Senators Rockefeller and Hutchinson:

On behalf of the rental car industry, we are pleased to support the consensus legislation that will soon be introduced that prohibits the rental or sale of vehicles subject to an auto manufacturer's recall until remedied. We strongly encourage your committee and Congress to pass this legislation this year.

For the last year we have worked closely with all stakeholders to develop legislation that would carry wide support. We firmly believe that this consensus legislation accomplishes that objective.

We applaud the work of Sens. Schumer, Boxer, McCaskill and Blunt to facilitate and support a process through which this legislation could be developed. Our industry will work for its successful passage.

Sincerely,
