Print

VIN: 2G1FC1E3XC9194713

Year: 2012 Make: Chevrolet Model: Camaro

Number of Open Recalls: 1

NHTSA Recall Number: [14V346](#)

Recall Date: June 26, 2014

Manufacturer Recall Number: N140294

SUMMARY:

General Motors has decided that a defect which relates to motor vehicle safety exists in all 2010-2014 model year Chevrolet Camaro vehicles. There is a risk, under certain conditions, that some drivers may bump the ignition key with their knee and unintentionally move the key away from the run position. If this occurs, engine power, and power braking will be affected and power steering may be affected, increasing the risk of a crash.

SAFETY RISK:

The timing of the key movement out of the run position, relative to the activation of the sensing algorithm of the crash event, may result in the airbags not deploying, increasing the potential for occupant injury in certain kinds of crashes. Until the recall has been performed, it is very important that drivers adjust their seat and steering column to allow clearance between their knee and the ignition key.

REMEDY:

Dealers are to provide two replacement key rings. Vehicles with slotted keys will also receive key inserts. This will be provided free of charge. Please contact your dealer now to order parts. Until the recall has been performed, it is very important that you adjust your seat and steering column to allow clearance between your knee and the ignition key.

RECALL STATUS: **Recall INCOMPLETE**

MANUFACTURER NOTES:

Visit manufacturer website at www.recalls.gm.com for more information.

THIS RECALL DATA LAST REFRESHED: Jan 14, 2015

Additional Safety Information

Besides the VIN search tool you just used, NHTSA offers additional safety information based on a vehicle's make, model, and model year and not tied to any particular VIN. A search by vehicle make, model, and model year gives you access to information about technical service bulletins, NHTSA investigations, and owner complaints, as well as safety recalls on aftermarket equipment that is often not linked to a particular VIN or even to your vehicle's manufacturer.

To search NHTSA's safety information based on your vehicle's make, model, and model year, please go to the [Safety Issues section](#) and follow the instructions there.
